Thanks Jan. This looks great. Can you tell me how many samples there were at bakers bridge and 32nd street bridge?

I'll forward to Megan and let her know which values to enter into the screening table.

Again, thanks so much for your help. I know you've been pulled in a bazillion directions on this project.

I'd rather have time to check all these values but know you need it now and I have something urgent for the next 15 minutes so here it is.
